

COMPETITOR DEMOGRAPHICS

- There were a total of over 5,600 male and 5,400 female competitors in the Paris 2024 Olympics:

|   | gender<br>character varying (30) | count<br>bigint |
|---|----------------------------------|-----------------|
| 1 | Male                             | 5658            |
| 2 | Female                           | 5455            |

- Here are the 10 countries with the highest number of athletes:
  - The USA and France had over 600 athletes each.
  - Team GB had 343 athletes.

|    | country<br>character varying (256) | number_of_athletes<br>bigint |
|----|------------------------------------|------------------------------|
| 1  | United States of America           | 619                          |
| 2  | France                             | 601                          |
| 3  | Australia                          | 475                          |
| 4  | Germany                            | 457                          |
| 5  | Japan                              | 431                          |
| 6  | Spain                              | 401                          |
| 7  | People's Republic of China         | 398                          |
| 8  | Italy                              | 397                          |
| 9  | Great Britain                      | 343                          |
| 10 | Canada                             | 332                          |

- The youngest athlete to have competed is 12 years old, whilst the oldest athlete to have competed is 69 years old.

|   | athlete_name<br>character varying (256) | gender<br>character varying (30) | country<br>character varying (256) | age<br>text |
|---|---|----------------------------------|------------------------------------|-------------|
| 1 | ZHENG Haohao                            | Female                           | People's Republic of China         | 12 years    |
| 2 | HANNA Mary                              | Female                           | Australia                          | 69 years    |

SPORTING CATEGORIES

- There were 45 different sporting categories, such as Athletics, Swimming, Wrestling, Judo and Football (to name a few).
- Within these categories, Athletics and Swimming had the highest number of events.

|    | sport<br>character varying (256) | num_of_events<br>bigint |
|----|----------------------------------|-------------------------|
| 1  | Athletics                        | 48                      |
| 2  | Swimming                         | 35                      |
| 3  | Wrestling                        | 18                      |
| 4  | Judo                             | 15                      |
| 5  | Shooting                         | 15                      |
| 6  | Artistic Gymnastics              | 14                      |
| 7  | Rowing                           | 14                      |
| 8  | Boxing                           | 13                      |
| 9  | Cycling Track                    | 12                      |
| 10 | Fencing                          | 12                      |

FINDINGS ON MEDALS WON

- Here are the 10 countries that have won the most number of medals in total. The USA is the only country to have won over 100 medals.
- Team GB won 65 medals, whilst the host nation, France, won 64.

|    | country<br>character varying (256) | total_medals_won<br>bigint |
|----|------------------------------------|----------------------------|
| 1  | United States of America           | 126                        |
| 2  | People's Republic of China         | 91                         |
| 3  | Great Britain                      | 65                         |
| 4  | France                             | 64                         |
| 5  | Australia                          | 53                         |
| 6  | Japan                              | 45                         |
| 7  | Italy                              | 40                         |
| 8  | Netherlands                        | 34                         |
| 9  | Germany                            | 33                         |
| 10 | Republic of Korea                  | 32                         |

- The USA is the only country to have won the highest number of Bronze medals (42) and Silver medals (44).
- The USA and China both won 40 Gold medals each, which is the highest.
- Here is a table containing the number of Gold, Silver and Bronze medals won every day by athletes.
